

# TOP QUALITY HAS BEEN OUR STANDARD WITH EVERY STILL WE HAVE EVER MADE FOR OVER 35 YEARS.

## **SOLVENT RECYCLING IS WHAT WE DO**

We have specialized in money-saving solutions for the flexo industry for over 35 years. Whether you're looking to have fresh solvent arrive at your doorstep regularly, set your company up to recycle in-house, IHSolve should be able to help.

## **BY THE BARREL**

IHSolve is a pioneer in the flexographic solvent recovery industry. Our company was founded in 1986. We began with recycling flexographic solvents at our site. The design and manufacture of distillation systems was soon to follow. We were among the first to do this and have continued to search for faster and better ways to keep the earth green while keeping the process more cost-effective for you.

## **BY THE STILL**

IHSolve stills are fully automatic and require no operator involvement. Our stills come in 200, 400, 600, and 1,000+ gallon capacities.

## **BY THE BEST IN THE BUSINESS**

IHSolve is unconditionally dedicated to developing the highest quality technologies and customer service. We will strive to serve the marketplace with absolute integrity, honesty, and unwavering commitments to quality in all we do. Upon these essential foundations, IHSolve will build its future.

**WE OFFER STILLS IN 200, 400, 600, AND 1,000+ GALLON CAPACITIES.**

200 GALLON  
IHS-950T

BUY THE STILL

# TOP QUALITY HAS BEEN OUR STANDARD WITH EVERY STILL WE HAVE EVER MADE FOR OVER 35 YEARS.

IHSolve offers a life-time warranty on the manufacture of the equipment, cooking pot and tanks. All of the components of the still have a one year warranty.

Quality is still our business Every IHSolve still is DESIGNED SPECIFICALLY to meet the needs of the end user; they are not adapted from what is in use for some other application. Built into each still, regardless of capacity, are features which provide ease of use, efficiency, and safety.

Each still is designed with "Rapid Pay Back" ROI for our customers in mind along with proven dependability, and superior support service. That is what we at IHSolve call quality. Nothing less.

- Sight glass
- All stainless skins and plumbing
- Residue drum cart
- Scraper blades in cooking pot
- Touch screen for operator controls standard with every still

Touch screen equipment can be placed in remote part of plant and operator has full control and viewing with easy GUI interface software from the plate room. Graphic Display of all temperatures and volumes along with cycle timers and alarms. Instant factory service is readily available through Internet connection allowing for easy problem resolution.

- Direct access to the still for factory support
- Optional CO2 fire suppressant system guarantee
